

WINTER IS THE TIME FOR COMFORT, FOR GOOD FOOD AND WARMTH, FOR THE TOUCH OF A FRIENDLY HAND AND FOR A TALK BESIDE THE FIRE: IT IS THE TIME FOR HOME.

Our winter assignment for Nursery is to lay emphasis on reinforcing and provide maximum stimulating opportunities for learners to develop cognitive areas of development including personal, socio-emotional development. Let's pave way to healthy, friendly childhood for our learners to learn through play. For this reason, we are not burdening children of tender age with assignments which they cannot enjoy & relate.

We look forward for your cooperation to provide encouraging & warm environment to develop basic foundation skills.

" Happy healthy learning "

1.CL

It's parental care and conversation! Please include warm friendly talks with your child where you can educate them with life long learning episodes to inculcate empathy, confidence, spirit of never giving up and develop broader vision towards life.

SOCIAL SKILLS

I'm respectful!

- Let's practice special words with our family members, & friends. Use words thank you, sorry, excuse me, bless you!
- Respect feelings of your siblings or cousins, time to share, listen to others and take turns. Offer help to family members & follow simple safety rules.
- Chore chart - Enjoy & connect with your children and build lifelong learning. Make a chore chart on weekly basis, you can be creative by putting star as an accomplishment
- Time to tidy up in cleaning and organizing your toys and belongings.
- Laundry hunt - a fun game where children will sort clothes as per dark and whites. Encourage them in sorting socks, and placing clean items in their wardrobe.
- Salad making: winter season offer best, nutritious colourful vegetables. Encourage your learners to decorate salad, educate them with the benefits of carrots. Cucumbers, radish, etc.

- Let's build empathy, kindness & love in our children. Its time to serve & help animal's during harsh season. Sort a schedule with children to offer grains to birds, stray animal (under supervision of adults)

Role play

Play the role of parents /grandparents

Encourage your child to play the role of a parent or grandparent whichever they like help them by providing suitable words to express freely.

Fireless cooking

Play the role of a chef

(Encourage your child to cook a meal of his/her choice) under proper supervision as it is a fireless cooking. Most children love to have some creative time in kitchen. They love to imitate their mothers in doing household chores.

Benefits of this activity:

- Independence and self confidence.

By providing children an opportunity to work in kitchen helps them in developing self-confidence. They are wholly responsible for keeping it clean and keeping things organized.

- . Creativity and imagination.

Kitchen role play is an exciting and fun activity which stretches the children 's imagination and develops creativity. They enjoy experimenting with various pretend utensils to create their own imaginative scenarios.

- Language and communication

Kitchen role play widens child 's vocabulary as they begin to learn names of new objects and foods, while also learning new verbs like 'stir' 'cook' 'strain' etc.

Sandwich making activity Steps

to make sandwich:

- 1.Take two slices of a bread.
- 2.Spread mayonnaise or butter on them.
- 3.Put your favorite veggies on the bottom slice.
4. Cover it with top slice.
5. Your sandwich is ready.

Making jam and toast

1. Take a slice of bread.
2. Open jar of jam.
3. Use a spoon to spread jam on your bread.
4. Eat it and enjoy!

Happy Cooking!

c)Role play (setting up a table)

Let your children set the table under your supervision. Let them set the pantry according to the number of family members. Setting up a table will help children in following ways:

- 1.Table setting is a practical life skill that gives your child confidence and independence.
- 2.It teaches them table manners in disguise. They feel more worthy and understand others importance as a family member.
- 3.They learn how to politely refuse food they don't want and say 'thank you' when someone helps them in passing food etc.
4. They appreciate sitting and eating together as a family as it is rightly said "A family who eats together, stays together "

Vegetable sorting

Encourage your child to sort and peel vegetables which doesn't need knife like peas, beans, ladyfinger etc.

Benefits of vegetable Sorting and peeling:

1. It helps in developing visual and perceptual skills. Children are able to visualize things better.
2. Helps in developing fine motor skills (hand eye coordination)
3. Children are also able to identify different colours, types, patterns and sizes.

2.Show and tell

1.Wear your favorite outfit and talk about it.

Children should be encouraged to wear their favorite dress and they should be motivated to talk about. Parents can help by providing suitable vocabulary wherever they get stuck.

2. Favorite toy (talk about your favorite toy)

Children love to talk about the toys. They can pick their favorite toy and try to talk about it e.g.

This is my doll or this is my car. Encourage children to talk about colourwork bought it for them etc.)

Benefits of this activity:

- 1.Helps children in developing language.
2. Builds their confidence.
- 3.Helps them in expressing their ideas freely.
4. Builds their imagination.

3.SELF EXPRESSION

1.Dress up toys

Ask your children to dress up their favorite toy. Let them button and unbutton them. Be there to help if child asks for it. Otherwise let them do on their own but at the same time tell them it's ok to ask for help.

2.scribbling /cotton dabbing

Let your children to scribble for fun filled experience on antifelt them explore and be free while dabbing patterns with cotton balls. Don't expect perfection from them. Let them do it on their own without your interference.

3.Hand printing

Let's do something memorable one. Let your children to put their hand impression with the help of poster colours and keep it as a memory forever.

4.Dancing

An activity mostly enjoyed by one and all especially by the kids. Dance at your favorite music and make it a memory. Let them be their own masters.

5.Tracing (salt/suji)

Let your child to draw patterns on salt or suji whatever they like and watch them what they want to express.

Benefits of salt/suji tracing

- 1.It is to build hand strength.
2. It is to build pre-writing skills.
3. It helps in developing writing skills without the hard grip of pencil.

6. Seed germination

Ask your child to wrap a seed in a wet cotton for some days and observe it.

4.Story telling

- 1.Dora

<https://youtu.be/gGslvfeQocU?feature=shared>

Benefits of story telling

- 1.Helps children to count, share, read and be accepting of others.
- 2.Helps children in developing language.
3. Builds their imaginative powers.

2. Vir The Robot Boy <https://youtu.be/rpZ15cj-viQ?feature=shared>

Vir is a humanoid robot. In this cartoon series you will learn how to be kind, intelligent and helpful when someone is in need. Apart from this you will enjoy each character being shown.

3. Play school <https://youtu.be/zLUe5JVz-zQ?si=Of0xYPTnHS9JLJIO>

Play school videos is a great place for children to learn social skills and will learn to make new friends. They can learn how to share, take turns and communicate with others. It helps children to developed cognitive skills like problem solving, critical thinking and creativity.

4.Art

Little Artists 

Creative Art:

Engage your learners in creative activities and provide enough resources to develop confidence, interest and love towards art. Below are listed few activities which needs to be maintained in art file

(Please note - all art activities need to be conducted independently)

* Recognize basic names of primary colours and blend colours to form secondary colours. Create colour wheel by using colour palette & thick paint brush

OR

* Make a book mark with secondary colour in any shape like heart, circle etc.

1. Bottle cap pumpkin

Get the caps of the bottles and with the help of poster colours ask your children to make impressions on paper to make pumpkins.

2. Vegetable dabbing

Get any vegetable like carrot, lemon, ladyfinger etc. and ask your child to dab it on art file with the help of poster colours.

3. Sponge rainbow activity

With the help of sponge and poster colours ask your child to make rainbow on art file by sweeping sponge on paper laden with different colours.

4. Balloon dabbing

Blow the balloons and ask the child to dab it after dipping in colours.

5. Hand and foot figures

Again, a memorable activity for kids. let them to make impressions of hand and foot on art files and keep it as most cherished memory.

6. Carrot hand print

Let your child to put his fist impression by dipping in colour and keep it as a memory.

* **Recognize basic names of primary colours and blend colours to form secondary colours. Create colour wheel by using colour palette & thick paint brush**

OR

* **Make a book mark with secondary colour in any shape like heart, circle etc. p it as a memory to be cherished later.**

Mathematics

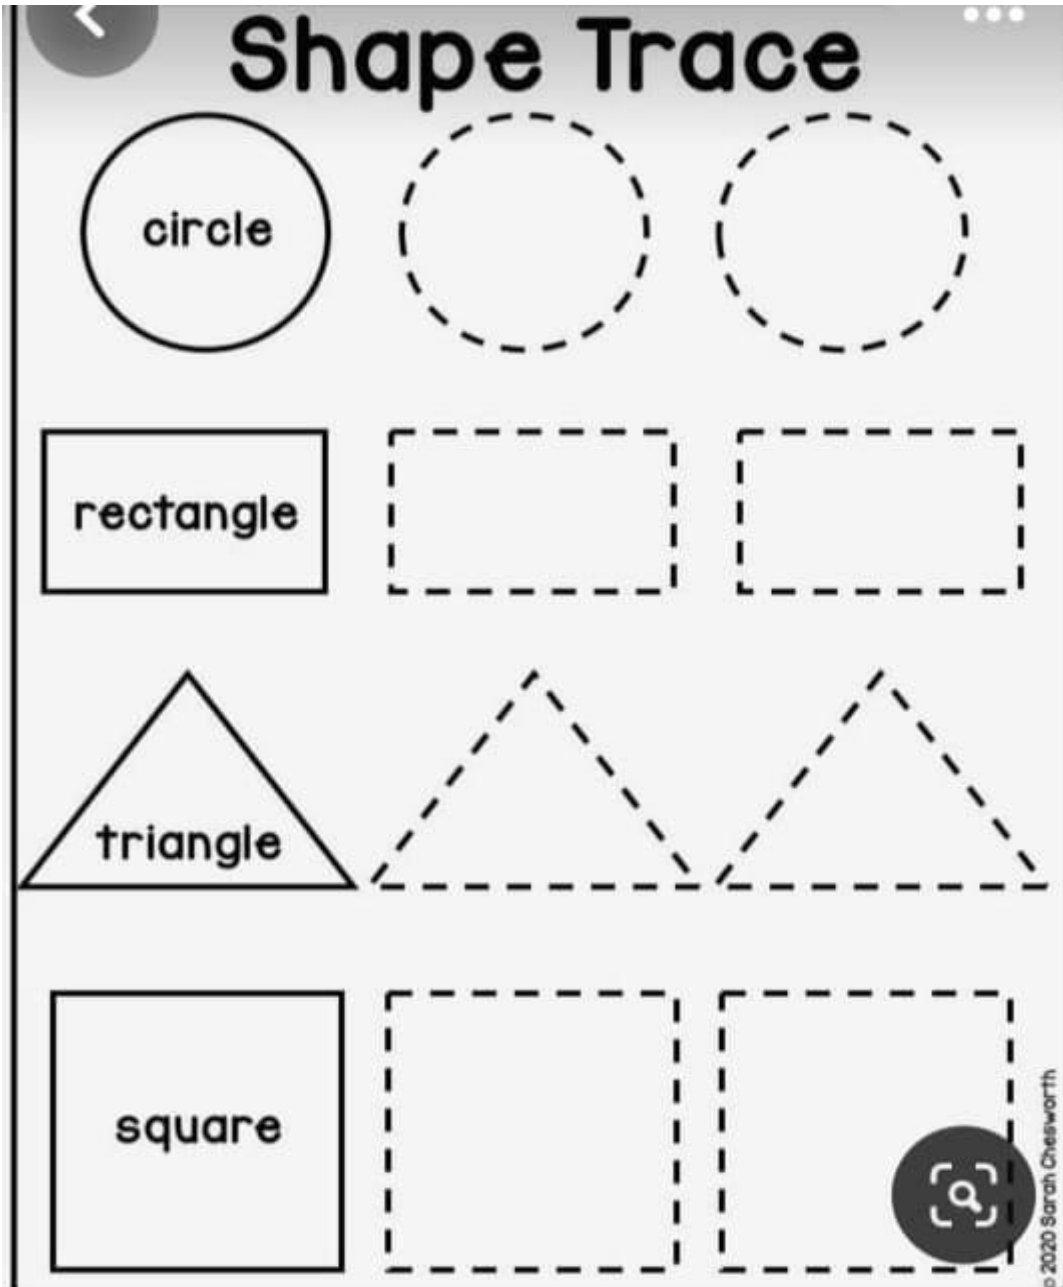

Reasoning & concept development:

Let's reinforce our mathematical concepts supported by worksheets provided

1. Match groups / figures according to shapes and numbers.

(post sheets cropped and ensure its titled)

2. Identify objects on the basis of similarities and match them. (post sheets)

< Count the candles on each cake.
Match with the correct number.

2

4

5

1

3

count and encircle the number.

 <p>1 2 3</p>	 <p>5 4 2</p>	 <p>7 3 2</p>
 <p>8 3 4</p>	 <p>3 5 6</p>	 <p>1 5 2</p>
 <p>2 3 6</p>	 <p>6 5 1</p>	 <p>2 5 <input checked="" type="radio"/></p>

Count and Match.

Short and Tall

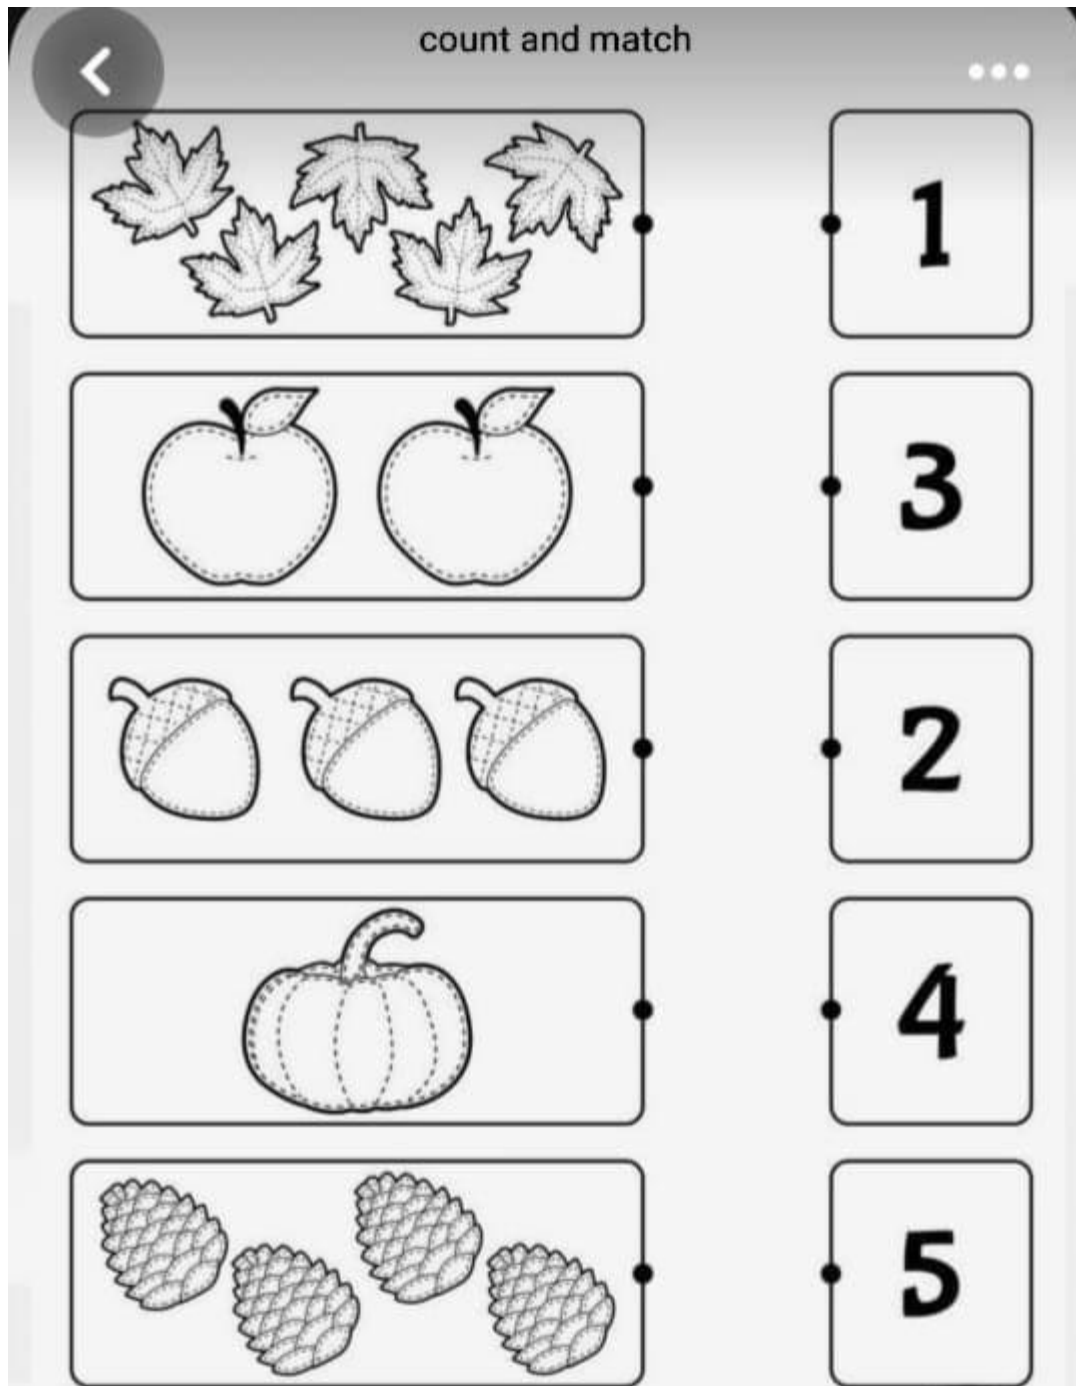

Directions: Color the picture that is short.

BIG & SMALL

Color Big object with yellow and Small with green.

1. count the number of pulses from 1-10

Ask your children to count the pulses from 1 to 10 while saying loud.

2. M&M Graphing

Let your child to put beads on the line according to given number but restrict it to 1 to 10 only. **3. Make shapes with play dough**

Let your children make shapes like circle, triangle, square, rectangle etc. with clay.

4. Transferring of pulses from one bowl to another

Let your children to transfer pulses from one bowl to another while counting. Let them arrange the pulses in the bowl according to more or less concept. **5. sorting**

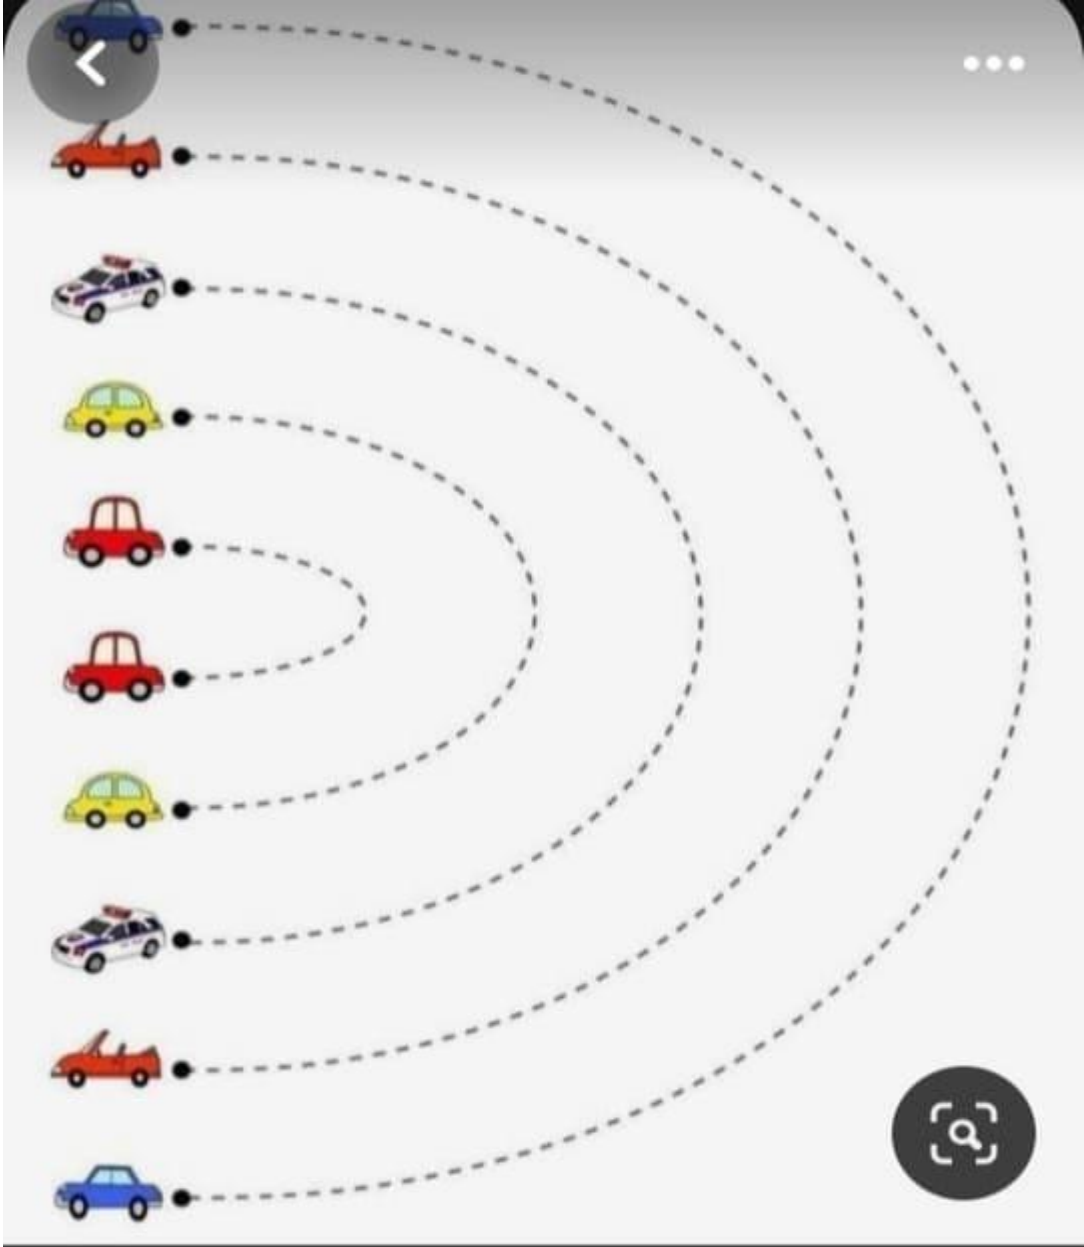

Correct, colour and number

Mark the bottle with numbers and tell the child to put the pulses etc. According to the numbers mentioned on the balls.

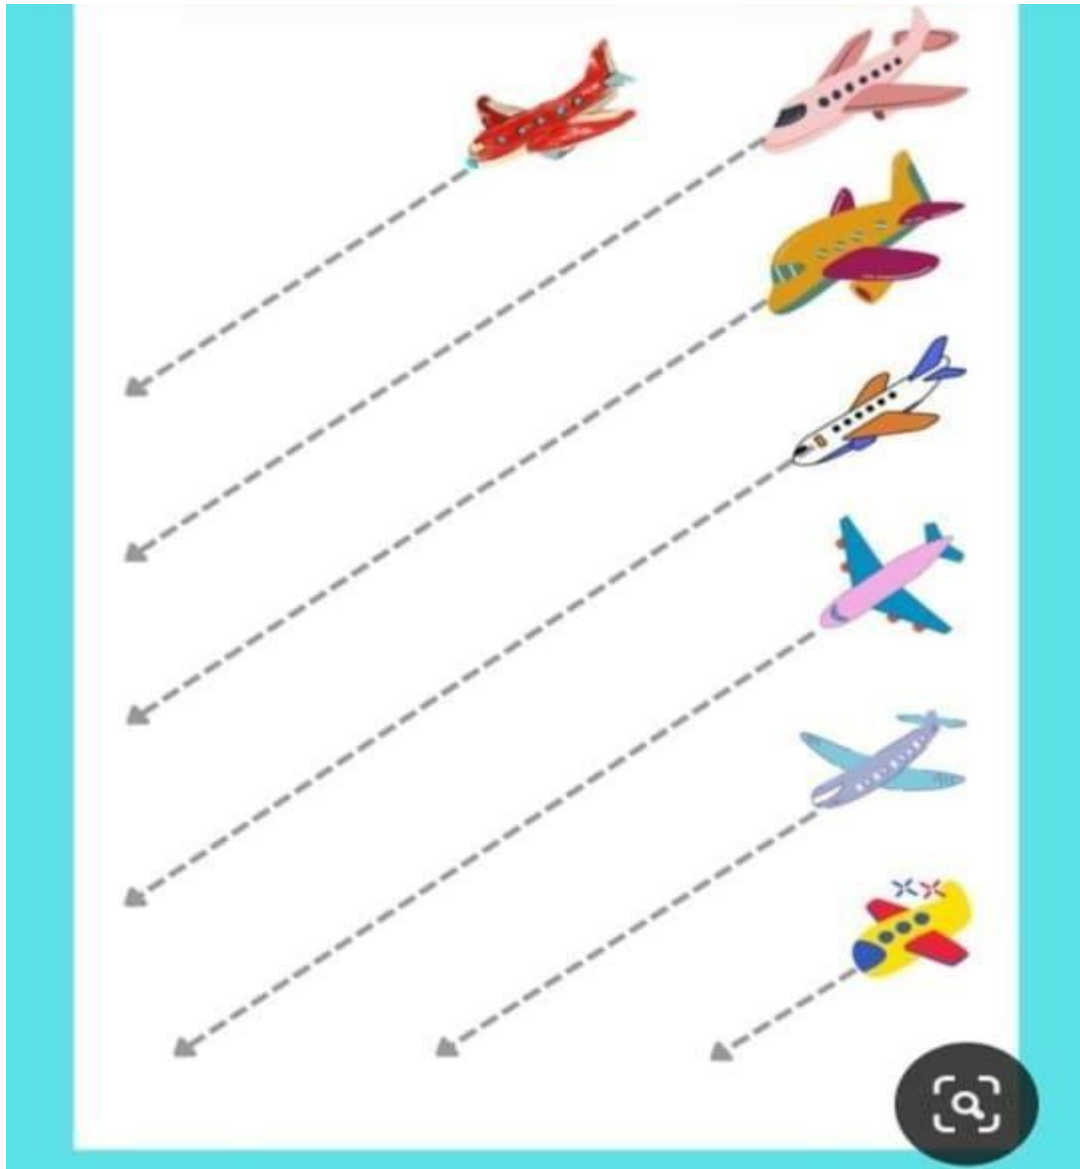

Physical development

*Using child friendly scissors follow & cut the patterns provided like zigzag, curvy lines, etc. (. Post sheets)

- * Let's be responsible: Time to show how smart we can be and develop our motor skills:
- * Unbutton and Button shirts
- * Untie shoelaces and place them in shoe rack.
- * Try to fold your hand towel, napkins, your night dress.
- * Let's enjoy cold weather, roll in snow, Bounce, kick and throw balls with your friends.
